Bring your
ideas to life

Wide format colour
systems to maximise
your design assets

Bring your ideas to life with Océ wide format colour systems.

These economic devices are the fast, easy way to get your plans and technical information on paper. Whether it's engineering designs and drawings, architectural plans or GIS plots, you'll see the difference in sharpness and clarity. You can choose from printing widths of 24 or 36 inches, or a multifunctional for quick, convenient copying and scanning of hard copy drawings. Each one will maximise the results of your design assets.

CAD designer

'Clear communication even under pressure'

'Strong, clear presentation is vital for my designs. So I won't compromise on output quality, even with tough deadlines. That's no problem with the Océ CS2136MF multifunctional.

- My prints, copies and scans, colour or monochrome, are always right first time, thanks to Océ green button operation
- I always get excellent sharpness and legibility, even on plain paper
- My jobs are done reliably and on time, whether it's digital or hard copy'

Landscape architect

'Creative expression despite growing complexity'

'My challenge is the increasing complexity of urban plans. I need maximum creative expression and accuracy for the best possible presentation. That's where the Océ CS2136 printer helps me.

- Océ predefined print and colour settings ensure consistent results on different media and regardless of the operator
- With roll and sheet feeds, the printer handles all my presentation needs on many types of media
- I can meet future needs by adding a RIP for specific file formats, or a scanner for copying and scan-to-file'

Beyond the Ordinary

Printing for Professionals

Océ helps the people who make our world. Companies everywhere use Océ technical documentation systems in manufacturing, architecture, engineering and construction. Each week, high speed Océ printing systems produce millions of transaction documents such as bank statements and utility bills. And in offices around the world, people use Océ professional document systems to keep the wheels of business and government turning. Océ is also at work in publishing on demand, newspaper production and wide format colour for spectacular display graphics. It all helps our professional customers go 'Beyond the Ordinary' in printing and document management.
