Users Seminar

Bristol, February 17th 2005

- 5-6 City Business Park
- Easton Road
- Bristol ● BS5 0SP
- Tel. 0117 9551052 ● Fax 0117 9551053

Dear CAD User,

You are invited to Cadspec's inaugural *free* Autodesk Users Seminar in Bristol on the 17th February 2005. This seminar is aimed at new and current users of Autodesk Mechanical CAD products and will allow people to learn new and better ways to get the maximum efficiency out of their CAD investment as well as network with people from other companies in your area.

The agenda will be*:

13:00 Welcome and Buffet Lunch

14:00 CAD System Streamlining by Bruce Jackson, Cadspec

A presentation showing how to set up your CAD and CAM systems to increase efficiency, reduce costs and lower rework and errors.

14:20 Checking Designs using the Design Accelerator by Wayne Kite, Cadspec

A demonstration showing how to use the new Design Accelerator in Autodesk Inventor 9 to perform strength calculations and automatically add correctly sized components.

15:00 Using Inventor Professional to Optimise a Robot Wars robot by Paul Tolliday, Man & Machine

A demonstration showing how the FEA portion of Inventor Professional was used to save weight on the champion Robot Wars robot "Dominator".

15:40 Coffee

16:00 Designing Electrical Control Systems using ACAD Electrical by Miles Nicholson, Aceri

A demonstration showing how to use the new tools in AutoCAD Electrical 2005 to speed up the design of cabling and electrical control system.

16:30 Automatically Creating Bills of Materials in AutoCAD Mechanical by Wayne Kite, Cadspec

How to use the model structure function in AutoCAD Mechanical to automatically create parts lists that update if the model changes.

17:00 Close

Best Regards,

Bruce Jackson, MCAD Account Manager

* Agenda is subject to change and will be posted on www.cadspec.co.uk
