Workgroup 3D printing RIGHT NEXT TO YOUR DESK

- Produce quality models and prototypes in the convenience of your own office environment. This series fits perfectly **right next to your desk** and it has a built-in network card for easy workgroup sharing.
- Models are ready-to-handle directly from the printer without gloves. And with the HP Designjet 3D Removal System, **special disposal methods or equipment are not typically required.**
- Creating models doesn't have to be a messy or painstaking process. The HP Designjet 3D Removal System **eliminates the need for manual post-processing**—so you can easily create models that are ready-to-show while you and your office stay clean.

Intuitive and
easy to use!

EXCEPTIONAL MODEL QUALITY that you can rely on

- Achieve high-quality results using HP Designjet 3D **ABS materials.**
- Create precise models that achieve a high level of detail. Models produced with HP 3D printers are faithful to your original design—not just right off the machine, but days, weeks, and even months later.
- Make functional and durable pre-assembled models with moving parts that meet your demands in terms of form, fit, and function.

Functional,
resistant
and precise
models

Quality 3D printing that SAVES YOU MONEY

- HP Designjet 3D printers are among the lowest cost in their class and offer high part quality at an excellent price.
- See a fast return on your investment - **print 5 to 10 models per month and the printer nearly pays for itself.** And if it allows you to find even one critical error before tooling, it can potentially save you thousands of euros.
- They are intuitive and easy to use. Models are post-processed automatically, and you don't need a dedicated expert to operate—all of which can help save money.
- Experience true peace of mind with reliable HP Designjet 3D printers.
