

Xerox 6204

Wide Format Solution

The ideal fit for small
spaces and big projects

A wide format solution that's incredibly flexible and perfectly sized.

The fast, affordable Xerox 6204® Wide Format Solution makes it easy to print, copy and scan a wide range of high quality large-sized documents. It prints and copies up to 5 D/A1-size prints per minute—big-time speed for such a relatively small printer. The 6204 provides scanning options that enable even the most complex documents to be converted to electronic formats and stored anywhere on your network. Plus, our innovative toner and drum technologies enable the 6204 to deliver outstanding image quality at 600 x 600 dpi for both copying and printing. And even casual users will find its intuitive menus and touchscreen interface simple and easy to use.

Get it all right where you need it. While the 6204 is loaded with powerful features, its small footprint requires very little space, making it perfect for crowded offices or construction sites. It also requires very little effort to integrate with your existing workflow, meaning it will quickly and seamlessly help you boost your productivity.

Outstanding performance

The 6204 consistently delivers the kind of printing speed and versatility that produces up to 5 D/A1-size prints per minute, using drum and toner technologies that produce extremely uniform grayscales and solids on outputs up to 36 inches wide and up to 49.2 feet long. You'll enjoy reliable copying power that supports even the most demanding requirements, allowing you to choose features like collated sets or nine levels of copy density, and save time with Job Recall. And the 6204 offers enhanced scanning flexibility featuring the fastest on-board scanner in its class. You'll be able to convert scanned files to formats like TIFF, PDF, or CALS Type 1 and 2—allowing you to share, store or print files anywhere on your network.

The 6204's design is built on proven Xerox technology providing you with incredible reliability day in and day out.
