# The Digital Office Partner for All your Copy Needs

In any business environment, quite a significant amount of time is spent on copying. What would you say to a simple, compact and easy-to-use desktop copy solution, equipped to tackle all your basic copy needs? With the Aficio™1113, Ricoh introduces a digital copier that answers all your demands without offering any unnecessary sophisticated extras. Designed to fit on your desktop without taking up any valuable space, the Aficio™1113 optimises your office efficiency. You will be amazed by its productivity, its digital advantages and its superb ease of use. Also unique are the A3 copying possibilities and environmental friendliness. With the Aficio™1113 you obtain a true office asset in the form of an affordable, compact and user-friendly copy solution.

# Focus on Compact and User-friendly Digital Copying

Equipped with Ricoh's state-of-the-art digital technology, the Aficio™1113 stands for fast and high-quality copying without compromising on ease of use. This digital copy solution is exactly what your office environment needs for an efficient copy workflow.

## Space-saving and Easy-to-use

Bulky copy systems often intrude on valuable workspace. Because of its compact design, the Aficio™1113 fits into the smallest office space and can even be placed on your desktop. Installation and maintenance are easy while the system's straightforward operation panel provides simple programming. A space-saving yet user-friendly copy partner? The Aficio™1113 is your answer.

## Unique A3 Copying

You would never think a small copy system could offer flexible and versatile paper handling. The Aficio™1113 is the first digital copier in its class to offer A3 copying capabilities. Instead of first reducing your A3 original, you can now copy it directly onto A3-size paper and save time.

## The Digital Advantage

High reliability, continuous output quality, no more damaged originals. These are just a few of the Aficio™1113's digital benefits\*. As the system scans your originals only once, stores them into memory and reproduces them, superb quality is guaranteed at all times. In addition, this "Scan Once, Copy Many" principle eliminates the risk of damaged originals. Digital also stands for easy distribution. The Aficio™1113 delivers your copies in easy-to-remove, practical batches for handy distribution: no more time-consuming manual sorting or investing in expensive separate sorters.

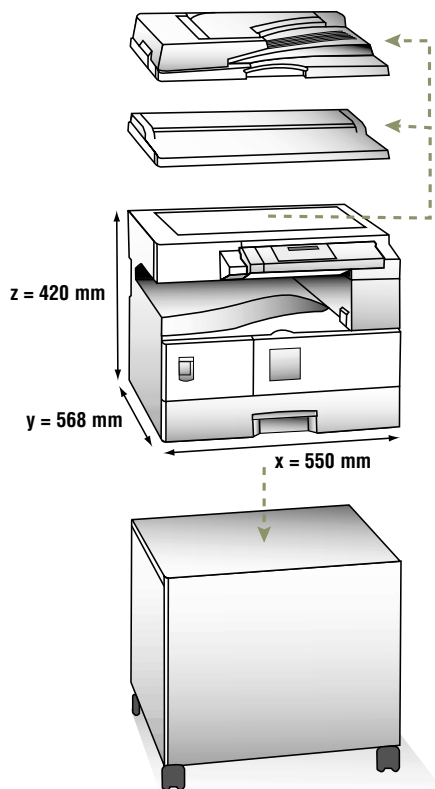

\* with optional 16 MB memory.

## Time-efficient Copying

Your office equipment has to keep up with your business. Whether you need just one copy or multiple sets, the Aficio™1113 turns copying into a productive process. A short warm-up time and a fast continuous output speed of 13 pages per minute guarantee you receive your copies in no time at all. In addition, the system's total input capacity of 350 sheets omits frequent refills and the optional 30-sheet Automatic Document Feeder allows you to feed up to 30 originals at a time.

## Thinking about the Environment

With its environmental-friendly design, the Aficio™1113 highlights Ricoh's commitment to its conservation policy. As ozone emission from the photo conductor unit is limited, your work atmosphere will be healthier and more relaxed. Moreover, the Aficio™1113 turns to energy saver mode after a certain time of inactivity. This not only ensures low power consumption but also minimises any noise emission, resulting in a cost-saving and pleasant work environment.

The "Scan Once, Copy Many" principle eliminates the risk of damaged originals and guarantees superb quality at all times\*.

To speed up your productivity, the optional 30-sheet Automatic Document Feeder allows you to feed up to 30 originals at a time.

# Aficio™ 1113

## Specifications

### GENERAL

|                          |                                                     |
|--------------------------|-----------------------------------------------------|
| Configuration:           | Desktop                                             |
| Copying process:         | Laser beam scanning & electro-photographic printing |
