KIP 7100 Production Expandability

The productivity of the KIP 7100 system is designed to satisfy the most demanding needs of decentralised users. The versatile KIP 7100 may also be expanded to provide workgroups with multifunction convenience. KIP 7100 system software is ideal for decentralised environments and expandable to meet the need for centralised printing.

The KIP 7100 provides operators with the flexibility to direct prints and copies to a preferred output destination – the integrated top stacking system and/or to an optional rear KIP stacking system for increased production.

KIP 7100 systems deliver the best of both worlds: walkup convenience and production printing!

Maximise The Power of The Web to Manage your System

KIP 7100 systems eliminate all barriers to efficient web-based system management. The KIP 7100 integrated PrintNET web server allows users and administrators to effectively communicate from remote locations with an intuitive new icon based interface.

Complete Communications Hub

KIP 7100 systems provide advanced features with simple operation for unequaled wide format performance. KIP 7100 systems are powered by KIP total print management software for superior productivity and the tightest possible integration with existing network infrastructures.

The ability to communicate with inkjet printers and remote workstations increases performance and the power to execute simultaneous copying, printing, and scanning tasks supports multiple users in busy workgroup environments.

- Meets strict security guidelines
- Integrated web server
- On screen system & operator guides
- Print management applications

KIP 7100 system operation is simplified with direct access by the operator to the touchscreen system & operator guides. Remote access to the guides is achieved via KIP PrintNET web solutions.

KIP 7100 Administration Control

KIP 7100 systems provide the ability to check the status of the system, track the progress of jobs in queues, monitor paper and toner levels, access user mailboxes and build print jobs. Administrators can implement systems access to ensure that only designated personnel can access the KIP 7100.

KIP 7100 Cost Reporting

The KIP 7100 automatically logs and reports on a comprehensive range of accounting data related to each system function. Dependent on administrative preferences, detailed reports may be generated to include times, dates, user names, job names, media used and related costs.

KIP 7100 E-Systems Reports

KIP 7100 reports detailing total system usage are delivered via email on demand or at designated intervals to system administrators. Recipients may have the email sent to a choice of PC, laptop or smart phone!

- Generate highly accurate reports on demand
- Create reports based on time or date range
- Create reports based on projects and users
- Manage inter-departmental expenses
- Reports provided in Microsoft Excel format

KIP 7100 Versatile System Configurations

The KIP 7100 multifunction system is available in a variety of configurations, providing the versatility to select an initial system with features to suit immediate requirements.

KIP 7100 Feature Access Keycodes

KIP 7100 additional features can be easily implemented via keycode entry at the touchscreen as required.
