

Océ 7050 Series

Wide-format plain paper copiers

Instant, high-quality copies, where and when you need them

Instant, high-quality copies

Where and when you need them

Fast, high-quality copies, made where and when you need them. With no warm-up time, and user-friendly operation. Those are the key benefits of the Océ 7050 line of wide-format plain paper copiers. Add the right combination of time and labor saving automated features, and you have the copier you need for everyday use in the drawing office or central archive. From Océ, the worldwide leader in wide-format copying and printing.

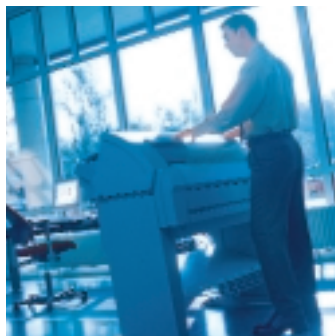

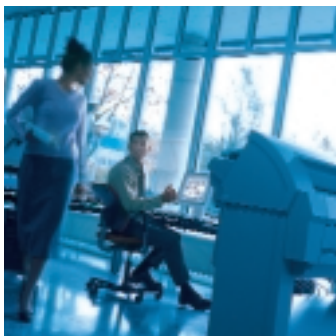

**Ideal for quick copies of
plots and drawings**

In most technical organizations, users need to make wide-format copies all the time. Original ink jet plots have to be distributed. Master drawings need to be updated or issued to service engineers. With the Océ 7050, you get the copies you need - quickly, reliably and conveniently.

Time and cost-saving

Make your own wide-format copies in-house and you'll save both time and money. These can be significant benefits, especially when you have a regular demand for copies. And, with no warm-up time, your copies are always available immediately - particularly important when you have tight deadlines to meet.

High-quality, durable copies

With the Océ 7050 you get excellent copies every time, even from old or less-than-perfect drawings. The unique Océ fusing system is completely free of silicon oil, ensuring spotlessly clean copies. Copies are water-resistant and allow easy manual correction, thanks to Océ's direct fusing process.

Place it where you need it

You can place the Océ 7050 right in the middle of your office or any other working area, thanks to its minimal ozone, noise and heat emission levels. As you'd expect from every Océ copier, the Océ 7050 is extremely energy-efficient. And it works perfectly with chlorine-free and recycled paper.

Walk-up simplicity

The Océ 7050 has been designed to make copying a quick, convenient process. Whether you choose a manual or automatic model, it gives you real walk-up simplicity.

The right copier for every situation

The Océ 7050 family has been designed to meet every need for cost-effective wide-format copying. From the economic Océ 7050/7051 manual models right up to the Océ 7055/7056 with their productivity-enhancing automated features, you get the right wide-format copier for your needs.

Océ 7050

Cost effective solutions for walk-up copying

Océ 7051

Valuable features that save time and manual handling, such as multi-copy and edge adjustment

Océ 7055

Productive copying with features such as automatic 1-roll media feed (up to 574 feet), multi-copy, test strip and edge adjustment

Océ 7056

Productive copying with 2-roll automatic media feed for on-line access to formats from 11" x 16.5" to 36" x 10' or a choice of copy media. Also multi-copy, test strip and edge adjustment
